

Hello!

My name is Microsoft Sam.

I am the American reader on Your computer.

If I should speak German,

You will not understand anything. Test it:

Das ist Deutsch mit amerikanischer Aussprache.

For German documents You should download and install German voices from Microsoft.

Look for the links at two bookmarks of this document. Install the Microsoft software.

After installing, You may choose between me and the German voices Anna or Stefan.

If You want to hear me again, click on the first bookmark.

Regard!

Sam.
